User Guide: Create Your Own Chatbot

Welcome to our platform where you can create your own chatbot and embed it on your website. This user guide will walk you through the step-by-step process.
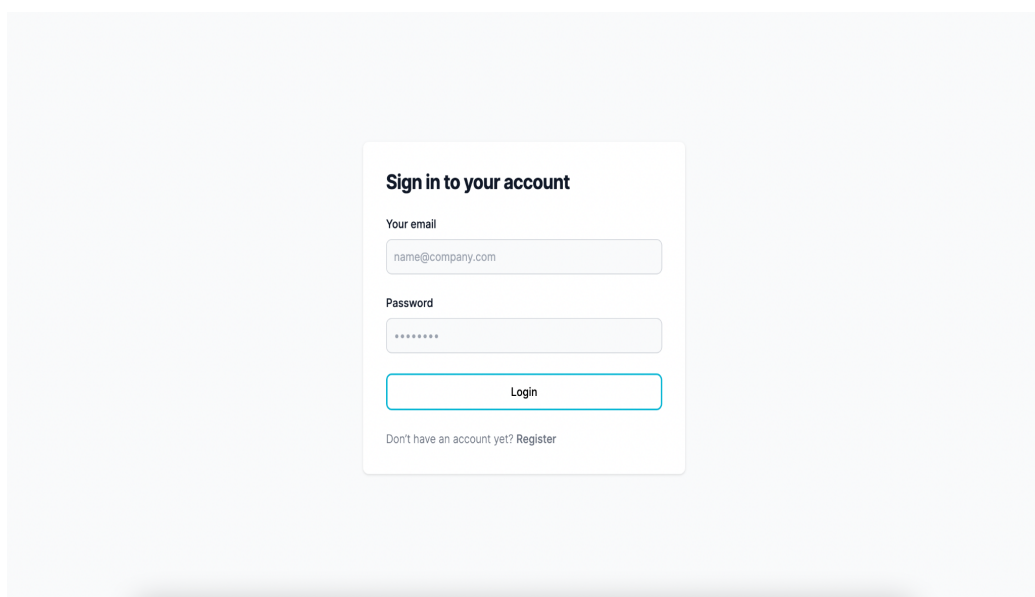

Table of Contents
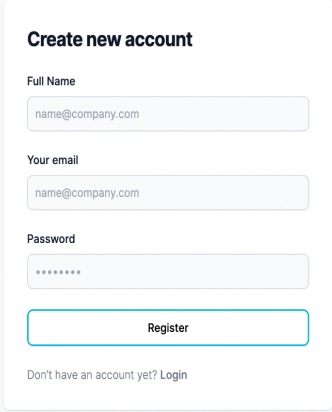

1. Login and Registration

Before you can start creating your chatbot, you need to log in or register for an account:

- Login: If you already have an account, log in with your credentials.

- Register: If you're new to our platform, click on the "Register", and follow the prompts to create your account. You'll need to provide a name, email address, and password.

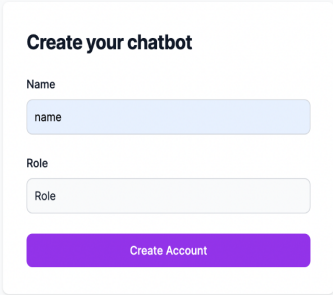

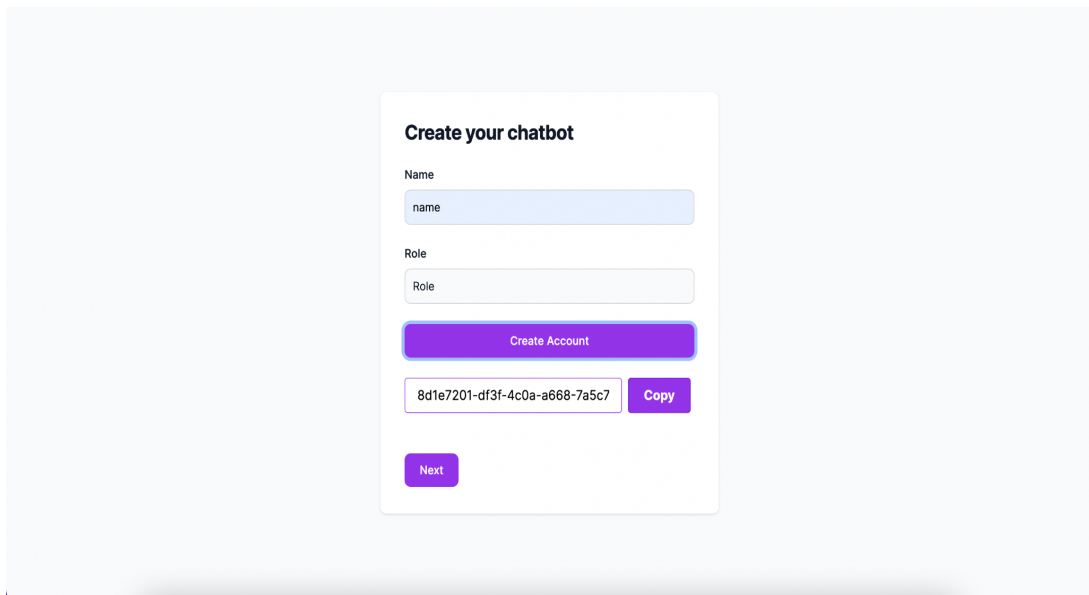

2. Create Your Chatbot

Once you've logged in or registered, you can start the process of creating your chatbot:

- Enter Your Chatbot Details: Fill in your chatbot's name and specify your role or industry.

- Create Account and Get Your Key: After submitting your information, you will receive a unique API key for your chatbot. Keep this key safe, as you'll need it for integration.

- Click next to move forward to integrate

3. Set Up OpenAI Key

To enhance your chatbot's capabilities, you can integrate it with OpenAI's natural language processing. Here's how:

- Access OpenAI Settings: In your account dashboard, find the "OpenAI Settings" section.
- Enter Your OpenAI API Key: Provide your OpenAI API key in the designated field.

- Save Your Settings: It will redirect to the upload document page.

4. Upload Your Document

Your chatbot's knowledge is based on a document you upload. Follow these steps:

- Select Your Document: Click the "Upload" button and choose the document you want to use as a reference for your chatbot.
